cladology
it's a science

At Arabian Profile we currently feature a stable of several distinct cladding products (Metal, GRC and GRP) which can be produced in any configuration to meet almost every requirement.

Whatever challenge we face, practical or creative, we analyze, develop and test and when we've finished, we analyze, develop and test all over again.

It's a philosophy our clients have come to expect. Whether it's a unique design, a total architectural solution, or simply cladding of superior appearance and performance they know that they can depend on Arabian Profile.

Arabian Profile Company Limited
